FRIGERIO ETTORE SPA	Industry (Logistic, Handling, Lifting, Industrial Furnaces, ecc.)	<a href="http://www.frigerioettore.com">www.frigerioettore.com</a>	Lecco	LC	Frigerio Ettore Spa, established in 1948. Its activity has been developing in two main sectors: cold metal sheet stamping and deep drawing combined with welding, assembling and industrial washing to produce parts upon customer's drawing and production of a wide Spectrum of TOGGLE LATCHES. Latches are manufactured to industry standards or customer specifics, to comply with the exigencies of the most diversified applications. All of this is supported by a workshop devoted to the design and in-house building of dies.	FEL, located in Lecco and run since 3 generations from the same family, took its first steps in 1948, during the years of the Italian economic miracle, under the leadership of Ettore Frigerio and his tireless wife Franca Here then the acronym FEL, Frigerio Ettore Lecco. In the early years, production was mainly devoted to toggle latches and hardware items and subsequently gradually expanded into the automotive sector. In 1972 FEL acquired the status of Joint Stock Company. Major customers belong to multinationals in the automotive industry. They can rely on quality and complex products and a flexible service, also supported by a workshop devoted to the design and in-house building of dies. Frigerio's calling for quality have led the company to be awarded UNI EN ISO 9001:2015 and IATF 16949:2016.
